Meeting #2 Milestones

Identify agency water demands and priority projects. We will hear from each agency about their water needs, current supplies and programs like conservation, conjunctive management, and recycled water uses.

- Brainstorm ways to creatively combine projects. We will entertain a collaborative discussion whereby we “cut and paste” projects, pipelines, and water management programs to serve the needs and demands that we identified earlier in the meeting.
- Identify flaws and controversies associated with each project. Discussion need to occur about the projects, and programs identified to help the Study Team understand what detailed evaluations need to be made concerning the overall project and program list.
